This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or ...

Each container with all of the equipment will weigh less than 16 tons. Fully tested before being shipped. Factory will provide free installation support and after sales service. Production time ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

Built in a 40ft High Cube foldable container, this all-in-one portable system is tailored for long-term off-grid operations requiring ultra-high capacity and energy security.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Built in a 40ft High Cube foldable container, this all-in-one portable system is tailored for long-term off-grid operations requiring ultra-high capacity and ...

The 40ft Energy Storage System Container is a scalable and efficient power solution for commercial and industrial applications. Designed for high-capacity energy storage, it ensures ...

Battery Storage System 40" Feet Container. Features and functions: High Yield. Advanced three-level technology, max. efficiency 99% Effective forced air cooling, 1.1 overload capacity, ...

Individual pricing for large scale projects and wholesale demands is available. Max. Charge/Discharge power.
