-----

In Vietnam's mountainous Ha Giang Province, solar containers powered schools where it was nearly impossible to stretch the grid. Teachers reported improved attendance, as ...

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery ...

Recent developments of the regulatory framework governing solar power projects in Vietnam, as discussed below, highlight the country's commitment to renewable energy and its ...

A technical and financial model for the construction of a hybrid grid-connected photovoltaic plant with a battery energy storage system under practical optimization problems ...

In June 2019, it successfully commenced operations ahead of schedule and started supplying power to the national grid. The solar farm ...

Solar container solutions effectively solve these problems. For any solar container project, this approach cuts grid dependence significantly. It provides continuous power, unlike ...

Grid congestion issues have halted the deployment of utility-scale solar projects in Vietnam for two years, posing significant challenges of curtailment and economic losses to existing solar ...

The solar products business is hotter and hotter in Vietnam, so our client set up a new company to do solar business. Before this big order, they tested our 500w off grid solar ...

In June 2019, it successfully commenced operations ahead of schedule and started supplying power to the
