Can Angola develop a photovoltaic solar energy industrial chain?

Sonangol, Angola's state oil company, has signed a memorandum of understanding with the Chinese firm Qinghai Lihao Clean Energy to establish a partnership aimed at developing a photovoltaic solar energy industrial chain in Angola. The agreement focuses on the production of solar panels using locally sourced quartz ore as the primary raw material.

How will Angola benefit from a solar project?

The project will generate over 500 megawatts of renewable power; provide access to clean energy resources across Angola; help Angola meet its climate commitments; and support exports of U.S. solar panel mounting systems, connectors, switches, sensors, and other equipment. The transaction is estimated to support 1,600 jobs.

How many solar projects are in Angola?
