Will New South Wales' energy storage projects boost electricity reliability?

The New South Wales (NSW) government has launched its sixth tender under the Electricity Infrastructure Roadmap seeking an indicative 1 GW of new long-duration energy storage projects to boost electricity reliability as the state's coal-fired power generators are shut down.

Can long-duration storage projects be supported by the NSW electricity infrastructure roadmap?

Long-duration storage projects can bid for financial support under the new NSW Electricity Infrastructure Roadmap Tender 5 which is now open. This tender offers support for up to 1 gigawatt of projects, which can each release energy into the NSW grid for at least 8 hours.

Why is NSW opening a new energy storage tender?

NSW has opened the largest energy storage tender in NSW history, seeking new long-duration storage projects to boost electricity reliability and keep the lights on in NSW. These projects will help ensure a steady and reliable supply of energy around the clock.

What is New South Wales' new energy storage tender?

New South Wales has launched a new tender seeking 1 GW of long-duration energy storage projects that are each able to continuously dispatch power for at least eight hours at their registered capacity.

The New South Wales (NSW) government has launched its sixth tender under the Electricity Infrastructure Roadmap seeking an ...

Sydney, 9 May 2025 -- AEMO Services, acting as the NSW Consumer Trustee, has launched its sixth competitive tender under the NSW Electricity Infrastructure Roadmap, ...

The tender is open to projects connecting to existing transmission and distribution infrastructure, or new
