How many energy storage projects are in Chile?

According to a December 2023 publication on the InvestChile website, the country had 23 approved energy storage projects with a total of 3,000 MW of capacity. Chile is exploring a variety of solutions to keep abreast of the changing energy demand landscape ranging from BESS to innovative projects using CO₂.

Will Chile be able to develop energy storage projects in 2024?

In 2022, Chile passed an energy storage and electromobility bill, which made stand-alone storage projects profitable, but the market is still expecting new rules on capacity payment for storage projects, which are to be approved in 2024. Chile has also put in place an auction procedure to award public land for the development of BESS projects.

How can Chile keep up with the changing energy demand landscape?

Chile is exploring a variety of solutions to keep abreast of the changing energy demand landscape ranging from BESS to innovative projects using CO₂. In March 2024, BESS Coya, the largest battery-based energy storage system in Latin America, started operations.

Why is Chile pursuing energy storage in Antofagasta?

Chilean president Gabriel Boric (centre) at the inauguration of an energy storage plant in the northern region of Antofagasta in April 2024. Chile has strong conditions for wind and solar energy, and is pursuing storage to help overcome intermittent supply (Image: Ximena Navarro / Dirección de Prensa, Presidencia de la República de Chile)

SHANGHAI, Aug. 11, 2025 /CNW/ -- Trina Storage has shipped the first 1.2GWh batch of its self-developed Elementa 2 BESS to Chile, marking its largest overseas standalone energy storage...

With transmission lines at overcapacity and permitting delays slowing the development of new grid

infrastructure, battery energy ...

Chile has emerged as a world leader in hybrid systems and standalone energy storage since implementing its Renewable Energy Storage and Electromobility Act in 2022.

Discover how METLEN Energy & Metals is driving Chile's renewable future with large-scale solar power and energy storage projects.

BYD has signed an agreement with Spain's Grenergy to supply an additional 3.5 GWh of energy storage systems. The supply is ...

During the Fiestas Patrias, the plazas, parks and the countryside in Chile turn into traditional places with handicraft stands, food trucks with typical Chilean cuisine, dance floors ...

Spanish independent power producer (IPP) Grenergy has secured a 1.25GWh energy storage supply agreement with CATL for its Oasis de Atacama project in Chile.

The sharp growth in renewable energy production, and the pursuit of ambitious global targets on new capacity, bring with them a significant challenge, alongside huge ...

We invite you to travel Chile in 7 days with this incredible itinerary full of activities and unique destinations of our country.

From the extreme north with the driest desert in the world to the austral south with eternal ice and inverted waterfalls, Chile is an invitation hard to refuse. Learn about tourism in Chile and be ...

BYD has signed an agreement with Spain's Grenergy to supply an additional 3.5 GWh of energy storage systems. The supply is for Oasis Atacama in Chile, one of the largest ...

The sharp growth in renewable energy production, and the pursuit of ambitious global targets on new capacity, bring with them a ...

Learn about the history of Chile and the life of great characters, science, and important events. Become immersed in the Chinchorro culture and see the oldest mummies in the world in San ...

Did you know that Chile is a tricontinental country? Whether you are looking for tips to plan your trip or you are interested in learning more about Chile's history and culture, here are some ...

Here you have a ranking with the five places in Chile that you must visit in 2025 according to international
