Why should you choose a circuit breaker manufacturer in Singapore?

24/7 online get a quote! Circuit breakers are essential components of any electrical system, protecting against electrical overloads and short circuits. In Singapore, the demand for reliable and high-quality circuit breakers has led to the emergence of a thriving industry of circuit breaker manufacturers.

When will Singapore end the circuit breaker?

As the daily number of new community cases has declined significantly and the dormitory situation has stabilised, Singapore is on track to end the Circuit Breaker on 1 June 2020. The risk of a resurgence in community transmission remains high, so Singapore must be cautious as circuit breaker measures progressively lift, over three phases.

What is the global circuit breaker market size?

According to a recent report by MarketsandMarkets, the global circuit breaker market size is expected to grow from USD 5.7 billion in 2020 to USD 7.7 billion by 2025, with a CAGR of 5.9% during the forecast period.
