One research focus area of the Task was the combination of solar thermal collectors with technologies for wastewater treatment. This work aimed to create an innovative and, above all, ...

raise ValueError(errmsg("&quot;Extra data&quot;;, s, end, len(s))) ValueError: Extra data: line 2 column 1 - line 10 column 1 (char 261900 - 6964758) PS. I use the word record, but that's not ...

I'm trying out uv to manage my Python project's dependencies and virtualenv, but I can't see how to install all my dependencies for local development, including the development ...

Leveraging this phenomenon, Sun and colleagues developed an innovative biological wastewater treatment system featuring a photothermal carrier material positioned ...

Because solar adoption at wastewater treatment plants is still relatively new, there is little known about these facilities, including where ...

By using solar panels to power the aeration equipment, these plants can optimize their oxygen supply while cutting back on their energy bills. But the innovation doesn't stop there.

This article provides an overview of harnessing solar energy for wastewater treatment plants, highlighting its relevance and importance in the context of renewable energy.

I have defined a pydantic Schema with extra = Extra.allow in Pydantic Config. Is it possible to get a list or set of extra fields passed to the Schema separately. For ex: from ...

Pydantic v1 You can use the extra field in the Config class to forbid extra attributes during model initialisation (by default, additional attributes will be ignored). For example:

Because solar adoption at wastewater treatment plants is still relatively new, there is little known about these facilities, including where they are, what drove them to choose solar, ...

If you are using pydantic 2 with pydantic-settings and BaseSettings instead of BaseModel, then set the config value of extra to allow or ignore. This is the new way of ...

For treating domestic wastewater, solar desalination technologies adopted for purifying brackish water into potable water is presented along with key challenges and remedies.

Discover how sanitation and wastewater facilities benefit from using solar energy. Learn the advantages, case studies, and future ...

I am struggling to figure out exactly how the extra argument for logging works. I have some legacy code I need to change which uses it, and the code also requires logging to ...

This article investigates the performance behaviour of a small decentralized wastewater treatment plant with a capacity of up to 50 population equivalents powered by ...
