Who makes the best circuit breaker?

With a respected image over the years, Schneider Electric is considerably at the top of the best circuit breaker manufacturers list around the world. They advocate for efficiency and sustainability, thus, creating a wide array of products.

What types of circuit breakers are available?

Our comprehensive inventory includes circuit breakers from major manufacturers, ranging from new to hard-to-find and used options. We provide a one-stop solution with our selection of miniature, molded case, and insulated case circuit breakers, as well as air breakers, vacuum breakers, load break switches, and related parts.

What is a Powerpact circuit breaker?

A flexible, high-performance offer, certified to global standards from 100 to 1200 A. The PowerPac T M-frame, P-frame, and R-frame circuit breakers are designed to protect electrical systems from damage caused by overloads and short circuits. These breakers are available with Micrologic electronic trip units. Also available in I-line construction.

What does a circuit breaker do?

Circuit breakers perform 3 key functions: protection, switching, and monitoring. Circuit breakers are designed to "break" (discontinue) the flow of electricity to protect people and equipment when current reaches an unsafe level due to overload, short circuit, or other electrical faults.
