Where is Ivory Coast's first solar power plant located?

Boundiali(Ivory Coast) (AFP) - The sun beats down from a cloudless sky on the town of Boundiali,where Ivory Coast's first solar power plant embodies the drive to embrace clean energy without abandoning fossil fuels. Issued on: 07/06/2024 - 11:51 Modified: 07/06/2024 - 11:49

Who financed the Ivory Coast solar power station?

The 75.6-million-euro (\$82.1-million) cost of building the solar power station was financed by Ivory Coast,a German loan and a European Union grant. "This is the result of the EU's long-standing commitment to the renewable energy sector,with almost 140 million euros since 2017," EU ambassador to Ivory Coast Francesca Di Mauro told AFP.

What is the Bondoukou solar PV plant?

The Bondoukou Solar PV Plant will generate 85 GWh of clean energy annually,enough to power approximately 358,000 households,while offsetting more than 52,000 tons of CO2 emissions. The project is being implemented by AMEA Goutougo,a project company registered in Ivory Coast and fully owned by AMEA Power.

Does Ivory Coast need fossil fuels?

By 2030,Ivory Coast has pledged to increase its share of renewable energy to 45 percent,including nine percent solar,and to reduce its greenhouse gas emissions by 30 percent. Fossil fuels however still play a key role. The West African nation recently discovered two huge oil and natural gas deposits.
