A groundbreaking step towards sustainable urban mobility, the solar-powered carport at Hauz Khas Village offers fast EV charging, supporting Delhi's green energy initiatives.

The growth of India's solar and energy storage sectors across various fronts is dynamic, and by integrating renewable energy solutions into our infrastructure, we not only ...

The system allows for fast charging of two and four-wheelers in less than 1 hour while providing delivery services in inner city and confined spaces. The concept was ...

Philipp Ackermann, German Ambassador to India and Bhutan, recently inaugurated a grid-connected solar-powered EV charging station ...

IIT Delhi researchers have developed a truly modular, scalable, and environmentally friendly electric vehicle (EV) charging ...

The growth of India's solar and energy storage sectors across various fronts is dynamic, and by integrating renewable energy solutions ...

Delhi's first grid-connected solar-powered electric vehicle charging carport has been established by Servotech Power Systems in association with the National Solar Energy ...

The system allows for fast charging of two and four-wheelers in less than 1 hour while providing delivery services in inner city and ...

This Solar-Powered EV Charging Carport, established as a pilot project at the Hauz Khas Village parking
