This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on ...

China's AlphaESS has signed a cooperation agreement with EPC partner Eltodo a.s. to deliver a combined 320 MWh of utility-scale battery energy storage systems (BESS) ...

To meet the demanding requirements of the Czech grid, AlphaESS is supplying the Aster 5000, a 5MWh liquid-cooled energy storage system designed for reliability, rapid ...

With the growing share of renewable energy and the rapidly decreasing costs of battery storage technologies, the Czech Republic is experiencing a new energy boom.

The European Commission (EC) has approved the Czech Republic's plan for a EUR-279-million (USD 303.7m) state aid programme that will enable the deployment of at ...

Boosting energy storage will allow Czechia to improve its energy security and reduce reliance on gas and coal imports, two key sources in its current energy mix. Moreover, ...

With EUR279 million in EU funding approved for 1500MWh of new energy storage capacity, the country is set to double its current storage capabilities and accelerate its ...

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage ...

With EUR279 million in EU funding approved for 1500MWh of new energy storage capacity, the country is set to double its current ...

New energy storage project in Czech Bay
