What is Romania's largest battery project?

Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date. The company will build a 400 MWh facility in Floresti, Cluj county, which is expected to be operational by the end of 2025.

How much storage capacity will Romania have in 2025?

This single project will double Romania's current installed storage capacity of 398.8 MWh, a figure that comes from transmission system operator Transelectrica, and mentioned by Romania's energy minister Sebastian Burduja in April, 2025.

How is Romania transforming the European energy landscape?

The investment wave, supported by key regulatory changes, is elevating Romania in the European energy landscape. Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date.

Does Romania have a double taxation of stored electricity?

Romania's National Energy Regulatory Authority (ANRE) recently eliminated the double taxation of stored electricity. The new rules exempt electricity stored and then reinjected into the grid from several tariffs, removing a significant financial barrier for investors.

Identify and compare relevant B2B manufacturers, suppliers and retailers. Max. PRIME is a prominent manufacturer of advanced energy storage solutions, focusing on Lithium-ion ...

We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and ...

We are one of the Romanian leading enclosure manufacturers offering various, high-quality, and customized enclosures. Benefits from a group ...

Hybrid storage models: Projects like the 200 MW/800 MWh vanadium-lithium hybrid ESS (backed by China's Sinohydro) optimize cost and longevity.

The collaboration marks Trina Storage's entry into the Romanian market and is a strategic move to expand its presence in Eastern Europe. The project will feature a 65 MWh ...

Enterprising companies in Romania's energy storage market have expansion, with recent announcements from two major players, ...

Key market players include Tesla, Fluence, and Northvolt, alongside local companies like Exide Technologies. The market is expected to continue growing as Romania aims to achieve its ...

Electroalfa is a Romanian (East European) industrial group that offers design, production and delivery of a wide range of electrical as well as advanced sheet metal products.

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions ...

We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM services.
