Developed by Italian utility Enel and airport operator Aeroporti di Roma (ADR), the 10 MWh battery energy storage system (BESS) strengthens the airport's energy autonomy ...

Italy, June 3, 2025: Enel and Aeroporti di Roma (ADR) have officially launched the Pioneer project, a groundbreaking energy storage initiative designed to accelerate decarbonisation ...

Rome's busy Fiumicino airport just launched Italy's largest energy storage unit made from recycled electric vehicle batteries, reported Reuters. The system, called Pioneer, turns ...

Italy, June 3, 2025: Enel and Aeroporti di Roma (ADR) have officially launched the Pioneer project, a groundbreaking energy storage initiative ...

Rome Fiumicino leads as a sustainable airport with Europe's largest second-life battery energy storage system. As Italy's largest hybrid ...

Supported by scientific expertise from Germany's Fraunhofer Institute, this installation represents Italy's largest--and one of Europe's most extensive--second-life battery ...

Supported by scientific expertise from Germany's Fraunhofer Institute, this installation represents Italy's largest--and one of Europe's ...

Italy's largest second-life battery energy storage system was officially launched at Rome-Fiumicino airport yesterday. State-owned gas ...

Inaugurated on June 3, 2025, at Rome Fiumicino Airport, PIONEER is an energy storage system based on repurposed EV batteries.

Rome Fiumicino leads as a sustainable airport with Europe's largest second-life battery energy storage system. As Italy's largest hybrid second-life battery energy storage ...

The inauguration of the largest energy storage facility using second-life batteries in Italy marks a turning point in the decarbonization of the Fiumicino airport hub.

Italy's largest energy storage system based on used batteries for electric vehicles was inaugurated on Tuesday at Rome's Fiumicino airport to help it reduce carbon emissions.

The project is the largest energy storage system using hybrid second-life batteries in Italy. The technology of the storage system will integrate second-life batteries from three ...

Rome's busy Fiumicino airport just launched Italy's largest energy storage unit made from recycled electric vehicle batteries, ...

The inauguration of the largest energy storage facility using second-life batteries in Italy marks a turning point in the decarbonization ...

Italy's largest second-life battery energy storage system was officially launched at Rome-Fiumicino airport yesterday. State-owned gas and electric company Enel's 2.5 MW/10 ...
