-----

Sweden installedx 430 MW of solar in the first half of 2025, with industry group Svensk Solenergi noting slower growth than last year ...

Sweden's largest energy storage investment, totaling 211 MW, goes live, combining 14 sites. 14 large-scale battery storage systems (BESS) have come online in ...

Researchers at Chalmers University of Technology in Gothenburg, Sweden, have achieved a groundbreaking milestone by creating a solar energy capture and storage system ...

Swedish renewables developer OX2 AB has received an environmental permit to construct a 110-MW solar park in southwestern Sweden, with plans to explore adding a battery ...

From the signing of the land lease agreement at the end of 2022 to the construction now underway, the project illustrates the rapid development within energy storage ...

Researchers at Chalmers University of Technology in Gothenburg, Sweden, have achieved a groundbreaking milestone by ...

Sweden installedx 430 MW of solar in the first half of 2025, with industry group Svensk Solenergi noting slower growth than last year but rising interest in battery storage ...

The expansion of PV systems in Sweden slowed in 2024 compared to the previous year, while investment in battery storage increased significantly. 2023 was a year to ...

Because they've cracked the code for 24/7 clean energy --even when the sun plays hide-and-seek. Let's

unpack how this Nordic nation is rewriting the rules of solar power.

Our latest overview of the top 20 battery energy storage projects in Sweden reveals a market that has shifted from cautious pilot activity to industrial-scale deployment in ...

Sweden's largest energy storage investment, totaling 211 MW, goes live, combining 14 sites. 14 large-scale battery storage systems ...

Fourteen large battery storage systems (BESS) have come online in Sweden, deploying 211 MW/211 MWh for the region. Developer and optimiser Ingrid Cap...

The expansion of PV systems in Sweden slowed in 2024 compared to the previous year, while investment in battery storage ...

The initiative, led by Ingrid Capacity in collaboration with BW ESS, consists of 14 large-scale energy storage systems with a total capacity of 211 MW/211 MWh. This milestone ...
