Is PDVSA putting pressure on Venezuela's oil storage?

The country's oil production reached the government's 1.2 million barrels per day target, Rodriguez said earlier this weekend. But the blockade appears to be putting pressure on Venezuela's oil storage. "PDVSA is filling up its storage tanks and cabotage vessels normally used for short internal hauls.

Is the US pursuing a third oil tanker near Venezuela?

(Bloomberg) -- The US is still in pursuit of a third oil tanker near Venezuela, according to a US official, as President Donald Trump intensifies an oil blockade on Nicol#225;s Maduro's government.

Did a Venezuelan oil tanker contain sanctioned PDVSA oil?

The tanker contained sanctioned PDVSA oil, White House spokeswoman Anna Kelly said in a post on X. Venezuelan Vice President and Oil Minister Delcy Rodriguez condemned "the theft and kidnapping" of the Centuries tanker on Saturday, calling the move "a serious act of piracy" by the US government.

Will US blockade deter oil shipping from serving Venezuela?

Schreiner Parker, a partner and head of emerging markets at Oslo-based Rystad Energy, said that the US blockade will likely deter much of the oil shipping industry from serving Venezuela.

??? Economy Venezuelan company PDVSA is using tankers as temporary oil storage due to critical overfilling of onshore tanks. This is caused by increased US sancti...

(Reuters) - Venezuela's state-run oil company PDVSA has started filling up tankers with crude and fuel oil it has in storage as inventories mount amid moves by the U.S. to seize Venezuela ...

The US is still in pursuit of a third oil tanker near Venezuela, according to a US official, as President Donald Trump intensifies an oil blockade on Nicol#225;s Maduro's government.

Title: Venezuela's Adoption of Floating Storage Amid U.S. Sanctions: A Strategic Response to Export Constraints and Energy Geopolitics Abstract This paper examines Venezuela's strategic ...

Un sistema de respaldo de energ&#237;a es una soluci&#243;n esencial para garantizar un suministro continuo de electricidad durante cortes o fallos en la red el&#233;ctrica. Nuestros sistemas almacenan energ&#237;a en bater&#237;as avanzadas de litio LifePO4.

Discover how modular energy storage containers are revolutionizing power management across industries in Caracas - and why global suppliers like EK SOLAR lead this transformation.

Wait, no - actually, the real crisis multiplier is the lack of energy storage solutions. Solar panels installed in 2020? They're basically decorative after sunset. That's where shared storage power stations come in.

U.S. pressure on Venezuela is disrupting oil exports, with tankers diverting, crude piling up at sea, and PDVSA facing imminent well shut-ins due to shrinking storage capacity.

That's the vision behind the Caracas Power Plant Energy Storage Combined Unit - Venezuela's answer to the global energy puzzle. This hybrid marvel doesn't just generate electricity; ...

As Venezuela aims for 60% renewable energy by 2030, the Caracas Pumped Storage Power Station isn't just keeping up--it's setting the pace. It's proof that sometimes, the best solutions ...

Venezuela is currently not on par with other countries in the energy transition because its energy comes from fossil fuels rather than renewables. However, there are several cases of renewable energy production.

Un sistema de respaldo de energ&#237;a es una soluci&#243;n esencial para garantizar un suministro continuo de electricidad durante cortes o fallos en la red el&#233;ctrica. Nuestros sistemas almacenan energ&#237;a en ...
